

Building 1, Croxley Park

Progress Update

Update on progress, activities and what's coming up over the next month
Issue 03 – February 2020

Welcome to the February newsletter for the ISG project at Croxley Park.

Since December we have had excellent progress on site. Concrete Frame Construction is now in full swing, with our ground floor slab construction nearing completion over the next couple of weeks and level 1 slab construction commencing. This means no more hiding behind hoardings for us.

We are targeting to complete a level each month so visually it will look great to see the concrete frame construction progressing behind/above the hoarding line.

We've also, finally completed some vital services diversions to allow the Multi Storey Car Park structure to commence, which is within the final stages of its design.

Hope you find these updates are informative and interesting and we welcome any feedback or queries on the project, with the Site Manager, Mark Carstens being available and open to your questions anytime (mark.carstens@isgplc.com).

Meet Our ISG Managers:

Alan O'Garro

Senior Technical Services Manager

Alan will be driving the electrical and mechanical design and installation on site. Alan has been with ISG for some time now, 'lighting' up our days, not just electrically!!!

Construction Progress

- Ground floor slab construction nearing completion
- Level 1 Construction commencing
- Services Diversion completion

1st Concrete Pour to the Ground floor slab – 23.01.2020

2nd Concrete to the Ground floor slab – 31.01.2020

For further information or to discuss how we could help your project please email Building1CroxleyPark@isgplc.com

Building 1, Croxley Park

Progress Update

Update on progress, activities and what's coming up over the next month
Issue 03 – February 2020

We had our 1st of 4 site visits from the Considerate Constructor's Scheme and scored 40/50. This gives us an excellent platform to build on for the future visits from the scheme.

Upcoming works: Feb - April

- Completion of the ground floor slab construction
- Completion of level 1 & 2 slab construction
- Commencing level 3 and Roof construction
- Commencing the Multi Storey Car Park Construction.

About us

The Croxley Park project is being undertaken by the ISG Thames Valley Division, based in Reading.

The division is constantly developing and winning new projects in and around the M4 corridor and Reading area.

Currently the division is working on a range of projects from Guildford to Bristol and many sites in between.

Level 1 Slab Construction Commenced – 03.02.2020

Ground floor slab column installation
